*Accepting applications for the Fall 2019 semester!

Information Packet

For further information and questions, please contact the Nursing Office:

Ms. Tasha Taylor, Nursing and Allied Health Academic Advisor
ttaylor@pdc.edu || Phone: 757-569-6779

or

Mrs. Griffin, Administrative Assistant
Phone: 757-569-6731

Nursing Office, Room 136K
Paul D. Camp Community College
Franklin, Virginia 23851-2422

Thank you for your interest in Paul D. Camp Community College’s Phlebotomy program.

Please note that the Nursing and Allied Health Department will no longer pull old transcripts from previous files/programs. We appreciate your continued interest in our programs; however, due to our limited resources, we ask that you provide new official transcripts from high school and college/universities when you apply to our programs. Transcripts are required for admission. Thank you!
JOB DESCRIPTION
A Phlebotomy Technician is an integral member of the medical laboratory team whose primary function is the collection of blood samples from patients by venipuncture or micro techniques. The phlebotomy technician facilitates the collection and transportation of laboratory specimens and is often the patients only contact with the medical laboratory. The need to assure quality and patient safety mandates strict professional behavior and standards of practice for these practitioners.

Specific Duties Include:
- Correct identification of patients prior to sample collection
- Collection of appropriate amounts of blood by venipuncture or dermal puncture
- Selection of appropriate specimen containers for specified tests
- Correct labeling of specimens with required information
- Appropriate transportation of specimens in a timely manner
- Professional interaction with patients and clinic personnel (soft skills)
- Processing of specimens for delivery to appropriate laboratory departments
- Maintenance of records manually and electronically
- Compliance with all safety regulations
- Maintenance of professional updates
- Professionalism in appearance and conduct

WORKPLACE
Phlebotomists work under the supervision of a medical laboratory technician, medical technologist, physician, or other individual with an advanced degree in biomedical or related sciences. Employment tends to be in hospital laboratories, veterinary laboratories, multi-physician clinics, doctors’ offices, health department laboratories, reference laboratories, insurance companies, and specialized clinics.

SKILL REQUIREMENTS
Phlebotomists must have fine motor coordination, clear speech, normal hearing, and good visual acuity to distinguish colors. They must be able to use both hands and have legible handwriting. Must be able to lift a minimum of 25 pounds, stooping, and bending is necessary. The phlebotomist must be able to move readily from one location to another in the workplace. The phlebotomist must have good verbal and written communication skills. The phlebotomist must be friendly and on time, with a positive attitude. They must be accountable for their work and actions, be able to resolve conflicts, be professional, flexible, and be a positive role model/mentor for new employees.

PROGRAM OVERVIEW
Program Goals
The goals of this program provide qualified students with the knowledge, skills and attitudes required for them to demonstrate entry level competence in the multiple tasks and duties of a Phlebotomy Technician as defined by the American Medical Technology Council. These goals include to: (1) serve the profession by providing skilled, professional phlebotomists, (2) serve the patient by providing excellence in care, (3) serve the student by providing quality training in a satisfying career, and (4) to serve the College by providing a program that contributes to its mission.
Program Objective
The Nursing and Allied Health Programs at Paul D. Camp Community College are designed to provide participants with a cost effective, flexible, state-of-the-art program that will enable the student to experience maximum success in the workplace.

Program Description
The program consists of eight courses. Three courses form a knowledge base for students to specialize in the skills of a phlebotomist. Introduction to Medical Laboratory introduces the student to the laboratory setting the phlebotomist works in. Two courses, Phlebotomy and Clinical Phlebotomy, focus on the skills and knowledge specific to the actual duties performed by a phlebotomist. The MDL 106 is an externship in a medical clinic, doctor’s office, or hospital. In the externship, participants will practice and master the duties of a phlebotomist, which consists of their academic training, soft skills, and lab skills, under the supervision of a certified phlebotomist.

*Fees subject to change; tuition rate is based on $157.65 per credit hour/VA resident; $355.25 for out of state residents

Successful completion of the course requires that the student meet the following criteria:
A. **Attendance**: Student must attend a minimum of 90% of all scheduled classroom time.
B. **Demonstration mastery in the program competencies**. Students will receive a syllabus with these course competencies at the beginning of each course. Instruction will be developed to train students to achieve the course competencies. Students will be evaluated on their achievement of these competencies.
C. Achieve additional requirements defined by the instructor.
D. Successfully complete the required courses and unpaid externship.

A Certificate of Completion will be issued by the Nursing and Allied Health Department upon successful completion of all courses for the program. College transcripts may be requested from the admissions office as proof of individual course completions. Information on graduation from the college (graduation from the college is a separate process): https://www.pdc.edu/admissions/

National Certification
Certification means that a person has passed a national examination based on national standards for a profession; in this case, Phlebotomy Technicians. Certification is an indication to the employer that the candidates have mastered nationally approved skills. Certified Phlebotomists tend to have greater job
opportunities and wages. To become a Certified Phlebotomy Technician, the candidate must pass a national examination. The Nursing and Allied Health Professions Programs at Paul D. Camp Community College educate participants with nationally approved curriculum standards. Graduates may sit for national certification exams upon completion of this program.

The there are several organizations that provide national certification examinations for phlebotomists. Requirements to sit for the examinations vary among organizations, as do the schedule for administration and the cost. Specific information regarding the examination should be requested by contacting the organization directly.

Official transcripts should be sent to:
Paul D. Camp Community College
Attention: Nursing Department/Tasha Taylor
100 North College Drive
Franklin, VA 23851

If you have any questions please contact:
Nursing and Allied Health Program: (757) 569-6779
or Admissions: (757) 569-6700 or (757) 925-6312

FINANCIAL AID: Contact or visit one of the Financial Aid Offices to apply for financial aid. You must complete all the paperwork for approval in the semester before you hope to begin classes.

ADMISSIONS PROCESS: STEP BY STEP

Admission Assessments
Academic assessment tools assist applicants in determining if they have the skills to achieve program goals, objectives, and competencies. With the information gained from the assessments, the Program Director can assist each applicant in developing an appropriate curriculum plan.

1. Candidates must meet both of the following criteria:
   a. Documentation of a “C” average (2.0 GPA on a 4.0 scale) or above in previous high school and college course work.
   b. Scores on the Paul D. Camp Community College Placement test indicating readiness for English 111 and no developmental English requirements.

Admission Prerequisites
The purpose of prerequisites is to ensure that participants have the entry-level skills necessary to succeed in the phlebotomy program. Developmental studies and special classes are available for candidates who have deficits in meeting the prerequisites. Paul D. Camp Community College will assist candidates by planning a course of study to acquire necessary educational prerequisites. The Program Director has the authority to waive an educational prerequisite based on criteria that indicates that the applicant will be successful in the program.

Educational Prerequisites
1. GED or high school education
2. Average of a C (2.0 or better) in previous college work and
3. Scores on Paul D. Camp Community College placement tests showing readiness for ENG 111 and no developmental reading requirement
4. **HLT 105**, Cardiopulmonary Resuscitation, offered on the Suffolk Hobbs Campus each semester, or **EMT 109**, CPR for Healthcare Providers, offered on the Franklin Campus each semester. *(this is INCLUDED in the program)*
   a. Your CPR certification has to be through The American Heart Association, and be First Aid for Healthcare Providers.
   b. The AHA certification is good for 2 years.

**Fit for Duty Prerequisites**

- Vision: to read medical documents
- Hearing: to answer telephone calls
- Dexterity: to create written documents, perform lab test, transcribe notes
- Ability to lift a minimum of 25 pounds to assist patients, move equipment
- Competency in English: to receive and give information

**Documentation**

- 1 official copy of High School Transcripts or GED scores
- 1 official copy of all transcripts from colleges other than PDCCC
- Copy of placement test scores
- Scores on placement test showing readiness for ENG 111 and no developmental reading requirement.
- Upon acceptance into the program, the Administrative Assistant will email (using your VCCS email) or mail further information to you.

**Workplace Prerequisites**

- Candidate must be a minimum of 18 years of age
- Candidate must be physically able to perform the duties of a phlebotomist.
- Candidate must agree to abide by SCANS workplace competencies
- Candidate must demonstrate personal qualities appropriate to the profession.
